"The World of Purity, Taste of Nature"

ABOUT COMPANY

In 20th century so many younger manufacturing company fixed their feet in the land of world manufacturing business, but few of those make themselves historical and that is one of the Indian company make them, selves historical to create their own creativity, with the full of possibility of green World.

known for Manufacturer, Supplier and Trader optimum quality Water Plant and Machines Ecofuel Solution was established in the year 2017. Offered product range consist of RO Plant, Water Vending Machine, Water Treatment Plant and Blow Moulding Machine. Their high performance, low maintenance, energy efficient design, longer serving life and rugged construction make this plants highly demanded across various industrial applications such as water treatment. Additionally, we are engaged in presenting excellent Turnkey Projects for Water Treatment Plant. Recommended by us at affordable prices, these services are known for their effectiveness and execution within the assured time limits. Seeing, we have appointed a team of highly skilled technicians and other supporting staff, which hold expertise in their area of work.

Backed with state-of-art ultra-modern infrastructural facility, we have been able to meet the precise needs of our valuable customers in the most efficient manner. Divided into several units, our infrastructure is known for carrying out streamlined operation. Moreover, our infrastructure is upgraded with latest tools and equipment, to increase the productivity in the most efficient manner. We have hired a team of skilled machine operators who manage our infrastructure in the most efficient manner.

OUR VIEW

In India have many places where is no minimum opportunity, focusing in Central India where are bunch of communities like this. They only have very few sources such as open wells and stream water, which flow from the hills and mountain. Although they have no way to travel several kilometers to get water for their livelihood. It is only source for their household and cuttles. They often fell sick by drinking unhygienic and contaminated water which is diluted with their every need. Due to lack of water the people that are most vulnerable to water-borne disease are the very young, even pregnant women, the elderly and people with weakened immune system.

So living water caring for many people of these communities to provide a cup of water. From living water has been providing drinking water to people in India by digging water wells.

We trust our India living water will be a blessing to you. If we can do anything to serve you, then let us know if you would interest to join us.

FACILITIES AT A GLANCE

ISI FULL PROJECT	CIVIL WORK DESIGN	BIS LICENSE	ISO CERTIFICATE
ASSISTANCE AFTER PRODUCTION	MERCHANTISING	BRANDING	LAB SETUP

WHY ECHO FUEL

The only place where you will get proper consultancy related to complete water project

We are technical and professionals which assures you the quality and reliability

Supply of all required machineries under one roof & more than 10 years of experience

Successful completion of turnkey project

Undertook projects for renowned brands

Your success is our main motive

STOP WASTING
START CONSERVING
WATER
